

# Ellie Goulding, Hanging On (ft. Tinie Tempah)

Uuuuu, wa-h... /4x

You know we can get away  
Because I'm calling your name  
Every day I feel this pain  
But you just turn and walk away  
Nooooo...  
I just can't keep hanging on, to you and me  
Uuuuu, wa-h...  
I just don't know what is wrong, with you and me

Touch me and then turn away  
And put your hands into the flame  
Tell me if you feel this pain  
Cause I don't want to be a ball and chain,  
Nooooo...  
I just can't keep hanging on, to you and me  
Uuuuu, wa-h...  
I just don't know what is wrong

[Tinie Tempah:]

Yeah!  
Give me the respect, forgive me and forget  
We've got to get a grip, living on the edge  
I barely even know this fuc\*\* woman in my bed  
And if there's too much on my plate, then  
I ain't finishing my veg  
And if anybody said the grass is greener on the other side  
Well it ain't, swear on my mother's life  
You got me wrapped up in your shit  
I'm feeling mummified  
I've only ever had this fuc\*\* feeling in my stomach twice  
You gave me what I needed, and I gave her everything she wanted  
Miss something 'bout your cleavage  
Now why can't put my fingers on it  
You're taking me the deepest  
I thought that she was gonna vomit  
If all women are from venus,  
Then I guess I really got a rocket  
You've got a noose around my neck, but i'm still hanging on  
We've nearly reached the finish line up in our marathon  
I spat a verse, she sang a song  
She broke my heart,  
I took some Gaviscon

I just can't keep hanging on, with you, with me  
With you, with...
