

# Ellie Goulding, Mirror

I look in the mirror  
And I try to see myself  
We ever look terror  
From the games I played so well  
I try to see clearer  
I try to forget the thoughts I started  
I try to be nearer

To where you are  
To where you are

Are we star crossed lovers  
Did I really want you gone  
If I'm really a winner  
Where do these demons come from?

I was the girl who was on fire  
I was the girl who was on fire  
Only a bird could get much higher  
(I look in the mirror)  
'Cuz I was the girl who was on fire
