

Ellie Goulding, Something in the Way You Move

It's the strangest feeling
Feeling this way for you
There's something in the way you move
Something in the way you move
With you I'm never healing
It's heartache through and through
There's something in the way you move
Don't know what it is you do
Not one bone in your body good enough for me
This heart is open, bloodstain on my sleeve
When our eyes meet, I can only see the end
But tonight I'm here, yours again

[Pre-Chorus]

But tonight I'm gonna lose it all
Playing with fire, I was the first to fall
Heart is sinking like a cannonball
Baby, kill it, what're you waiting for?

[Chorus]

Something in the way you move
Something in the way you do it
Something in the way you move
Oh
Something in the way you move
Something in the way you do it
Something in the way you move
Oh
Oh-oh-oh-oh-oh-oh
Oh-oh-oh-oh-oh-oh

[Verse 2]

There's an evil night air, the stars don't shine tonight (night)
Something in the way you do
Something in the way you
Push me closer, further
Break me just enough
Your lies always seem so true
There's nothing left for me to lose
There's not one thing I can do to change your ways
But I can't sit back and take the lonely days
When our eyes meet, I can only see the end
And tonight the rain pours again

[Pre-Chorus]

But tonight I'm gonna lose it all
Playing with fire, I was the first to fall
Heart is sinking like a cannonball
Baby, kill it, what're you waiting for?

[Chorus]

Something in the way you move
Something in the way you do it
Something in the way you move
Oh
Something in the way you move
Something in the way you do it
Something in the way you move
Oh
Oh-oh-oh-oh-oh-oh
Oh-oh-oh-oh-oh-oh

[Pre-Chorus]

But tonight I'm gonna lose it all

Playing with fire, I was the first to fall
Heart is sinking like a cannonball
Baby, kill it, what're you waiting for?

[Chorus]

Something in the way you move
Something in the way you do it
Something in the way you move
Oh
Something in the way you move
Something in the way you do it
Something in the way you move
Oh
