

Elliott Smith, No Name Number 6

Got bitten fingernails
And a head full of the past
And everybody's gone at last

Sweet Sweet smile
And it's fading fast,
Cause everybody's gone at last.

Don't get upset about it
No I'm not anymore
There's nothing wrong
That wasn't wrong before.
Had a second alone
With a chance let pass
And everybody's gone at last.

I hope you're not waiting
Waiting 'round for me
So I'm not going anywhere
Obviously

Got a broken heart
And a name on my cast
And everybody's gone at last
Everybody's gone at last.
