

# Elliphant, Could This Be Love

If i die  
Right here  
In the autopsy  
All they find in me will be toast and tears  
Yeah been blind  
Now i fear  
All those Times i was with you

Cause you are an emotion  
Caught up in the frozen  
Ice upon the lonesome  
Lake on Mars  
I try to crack you open  
Tell me how to get in  
Sicken into a feeling  
They call love

could this be love  
could this be love  
cause tonight i got drunk before everyone else  
walked tonight alone now i Wonder is  
could this be love  
can't be love  
could this be everything look for  
well i don't know anymore  
could this be love?

I can't smoke, for days  
Wail crying to  
I would die for you and Purple rain  
No, i am not mad, i am insane  
Amy was right  
That love is just a losing game

I try to crack open  
Tell me how to get in  
Sicken into a feeling  
They call love

could this be love  
could this be love  
cause tonight i got drunk before everyone else  
walked tonight alone now i Wonder is  
could this be love  
can't be love  
could this be everything look for  
well i don't know anymore  
could this be love?

Drink that rye  
And cry  
While watching every YT clip i find on  
Cute puppies  
How they try  
But they can't put a smile upon my face tonight

I am sad  
I am not smiling  
I am sad  
I am not smiling  
I am sad  
I am not smiling  
So could this be love?

could this be love?  
I don;t think so!  
could this be love?  
I don;t think so!  
cause tonight i got drunk before everyone else  
walked tonight alone now i Wonder is  
could this be love  
ca nit be love  
could this be everything look for  
well i don't know aymore  
could this be love?
