

# Elton John, Dear God

Dear God, are you there  
Can you hear me, do you care  
Dear God, here are we  
Less than perfect, far from free

Oh we take what we get and we don't take no more  
But we sometimes forget what it was you created us for

Dear God, now's the time  
If you're listening, show some sign  
Dear God, hear me plead  
Don't desert us in our need

Dear God, lend a hand  
Is this really what you planned  
Dear God, in you we trust  
Though we've failed you, don't fail us

Oh we take what we get but we can't take much more  
Do you sometimes forget what it was you created us for, dear God

I hope and pray you'll lead us to a brighter day  
Out of the darkness and light up our way, dear God  
I hope and pray you'll lead us to a better way  
Love is the answer so light up our way, dear God  
Light up our way dear God, dear God  
Love is the answer so light up our way, dear God
