

# Elton John, Go On And On

On and On  
On and On

She broke my heart, he hurt me too  
That's something that only unworthy souls do

They said goodbye, we say hello  
An introduction for a perfect love to grow

Let's stop thinking about the past  
And start thinking about the future  
So that love can go on and on  
Let's stop thinking about the past  
And start thinking about the future  
So that love can go on and on

She said she'd stay, he said that too  
So sad when you find out your love has found a new

She made me cry, he made me weep  
But life has love in store for us that's ooh so sweet

On and On (love keeps going on)  
On and On (they've got the whole of life)  
On and On (love keeps going on)  
On and

It's time to say goodbye to crying eyes and broken dreams  
And get back to the joy that to each other we will bring  
That starts from summer love to last through autumn, winter, spring  
Our hearts will sing forever, love
