

Elton John, Recover Your Soul

Baby you're missing something in the air
I got a name but it don't matter
What's going on, it's cold in here
You have a life but it's torn and tattered

Maybe you're losing pieces of your heart
You have a world but it stopped turning
You lose the day and gain the dark
Love was a fire but it stopped burning

Spare your heart, save your soul
Don't drag your love across the coals
Find your feet and your fortune can be told
Release, relax, let go
And hey now let's recover your soul

Lazy old sunset sinking like a tear
Alone at night in a losing battle
That perfect world is never clear
You have to fight for the things that matter
