## Elton John, Song For You

I've been so many places in my life and times I've seen a lot of things, I've had some bad rhymes I acted out my life on stages, ten thousand people watching Now I'm alone and I'm gonna sing these songs for you

I know your image of me isn't what I hoped it would be

I treated you unkindly, I'm a fool you see There's no one more imprtant to me Darling can you please see through me Now I'm alone and I'm gonna sing these songs for you
