Elton John, You Gotta Love Someone

Music by Elton John Lyrics by Bernie Taupin Released as a UK single in 1990

You can win the fight, you can grab a piece of the sky You can break the rules but before you try You gotta love someone You gotta love someone You can stop the world, steal the face from the moon You can beat the clock, but before high noon You gotta love someone You gotta love someone

You've got one life with a reason You need two hearts on one side When you stand alone and there's no one there To share the way it feels inside and baby

You can cheat the devil and slice a piece of the sun Burn up the highway but before you run You gotta love someone You gotta love someone

When you're gonna play with fire You let someone share the heat When you're on your own and there's no one there To cool the flames beneath your feet and baby

You can win the fight, you can grab a piece of the sky You can break the rules but before you try You gotta love someone You gotta love someone

You gotta love someone You gotta love someone
