

# Elvis Presley, Almost

We almost shared a dream  
We almost made it as a team  
How nice it would have been.

We almost touched the stars  
And there stood heaven, almost ours  
We were just outsiders looking in.

We had the chance to fall  
But fate stepped in to end it all  
Before it could begin.

And if it's true, you're really going  
There's nothing but goodbye to say  
The saddest part of all is knowing  
We almost went all the way
