Elvis Presley, Animal Instinct

Don't ever take tour eyes off me Not even for a minute 'Cause like a panther I might pounce And that will be the limit

I can be sneaky, fast as a snake I strike like a cobra, make no mistake And baby you'll be trapped, quick as a wink It's animal instinct

Don't think that I won't pin you down No matter how you plead it I'm like a lion who's been caged And you are gonna meet it

Watch out I'll warn ya', sharp as a hawk I'm wild as a tiger, I prowl and I stalk 'Cause when a man feels thirst, he takes a drink It's animal instinct

You better not be caught off guard This wolf is on the search now A leopard just can't change it's spots And I'm about to lurch now

I roar like the jungle, I fight tooth and nail I just gotta get you, you'll fall without fail I'm ready for the kill, I'm right on the brink It's animal instinct It's animal instinct, animal instinct
