## Elvis Presley, Give Me The Right

Give me the right To hold you tonight The tears that I've cried over you Give me the right

You can't say no When I need you so I want you back in my arms Give me the right

If you looked deep in your heart Like I looked into mine You'll find that nothing has changed Our love was there all the time

Why make me plead For something you need I want to bring back the thrill Give me the right Give me the right
