

# Elvis Presley, I Love Only One Girl

Oh, I love only one girl,  
the one I got my arms around  
I love only one girl, one in every town

In Paris there is Mimi,  
and when the moon is bright  
I love to take her walking,  
along the Seine each night  
I kiss her on the left,  
then I kiss her on the right

Oh, I love only one girl,  
the one I got my arms around  
I love only one girl,  
one in every town

I'm proud of my Brunhilda,  
in Frankfurt on the Rhine  
Oh she's a lot of woman and  
all of her is mine  
Oh she can lift a Steinway  
as easy as a stein

Oh, I love only one girl,  
the one I got my arms around  
I love only one girl,  
one in every town

In Naples there's Maria  
how she can cook and flirt  
You can't beat her lasagna,  
I eat until I hurt  
And then she tops it off  
with "amore" for dessert

Oh, I love only one girl,  
the one I got my arms around  
I love only one girl,  
one in every town

Oh I love only one girl,  
the one I got my arms around  
I love only one girl,  
one in every town

I love only one girl...I love only one girl  
I love only one girl... I love only one girl

She's the girl for me
