

# Elvis Presley, It Won't Be Long

The shooting stars are coming out of your eyes  
They point the way, the way to paradise  
I got a funny feeling, I can't be wrong  
It won't be long until the sparks will fly  
It won't be long

I hear a buzz, buzz around in my brain  
But what it does, is bound to drive me insane  
At a time like this I must be strong  
It won't be long till the sky falls down  
It won't be long

Love has taught me plenty,  
I'm still learning more  
Anything worth having is worth the waiting for  
Here I go, I'm on a one way trip  
Look out below because I'm about to flip  
I tell you when these lips get to that kiss

It won't be long until we're out of this world  
It won't be long

Love has taught me plenty,  
I'm still learning more  
Anything worth having is worth the waiting for  
Here I go, I'm on a one way trip  
Look out below because I'm about to flip  
I tell you when these lips get to that kiss  
It won't be long, it won't be long until  
we're out of this world  
It won't be long  
It won't be long, it won't be long until  
we're out of this world  
It won't be long
