

# Elvis Presley, Love Me Tonight

(Words & music by Don Robertson)

May this tenderness cling  
When the fire of Spring  
Is a memory  
May you still be my own  
When a hundred years have flown

But if it can't be  
Give this moment to me  
While our dream is bright  
Put your sweet arms around me  
And love me tonight

Love me tonight  
Let me feel your lips on mine  
And though I pray  
Forever and a day I'll be  
Possessing you

I'll confess to you  
If I knew that our love would be gone  
With the stars in the dawn's grey light  
I'd still hold you close and whisper  
Love me tonight
