

# Elvis Presley, Yoga Is As Yoga Does

(Words & music by Nelson - Burch)

Well I can see that you and yoga will never do

Yoga is as yoga does there's no in-between  
Your either with it on the ball or you've blown the scene  
I can see lookin' at you, you just can't get settled  
How can I even move, twistin' like a pretzel

(Yoga is, yoga does)  
(There's no in-between)  
(Your either with it all the way) Or you've blown the scene  
(Or you've blown the scene)

Come on come on, untwist my legs  
Pull my arms a lot  
How did I get so tied up  
In this yoga knot  
You tell me just how I can take this yoga serious  
When all it ever gives to me is a pain in my posteriors

(Yoga is, yoga does)  
(There's no in-between)  
(Your either with it all the way) Or you've blown the scene  
(Or you've blown the scene)

Stand upside down on your head, feet against the wall  
A simple yoga exercise done by one and all  
Now cross your eyes and hold your breath, look just like a clown  
Yoga's sure to catch you if you come falling down

(Yoga is, yoga does)  
(There's no in-between)  
(Your either with it all the way) Or you've blown the scene  
(Or you've blown the scene)

(Yoga is, yoga does)  
(There's no in-between)  
(Your either with it all the way) Or you've blown the scene  
(Or you've blown the scene)
