

# Emeli Sandé, Family

No red light or dark night can stop me  
No wall no matter how tall can block me

Well the sun is out and the family's good  
And we're living life like we always knew we could  
It's lovely  
I took a little time out just to meditate and my spirit said why you always late?  
I'm sorry  
I've got a need for speed and a head for dreams  
But I had to slow down see the wood for the trees  
Breathe easy  
But now my energy's on 110 and I'm never gonna let them bring me down again  
Believe me

No red light or dark night can stop me  
No wall no matter how tall can block me

If you're feeling low know you'll rise again  
Got knocked down nine times but get up for ten  
You got this  
And though it seems like the night won't end  
The morning's right around the river bend  
I promise

No red light or dark night can stop me  
No wall no matter how tall can block me  
No red light or dark night can stop we  
No wall no matter how tall can block we

No no no way

Look at what I've found now  
It's a brand new feeling  
Feet lift off the ground  
Breaking through the ceiling  
Look at what I've found now  
This a brand new feeling  
Only way is up now  
Only way is up now  
We been getting higher  
We all learn to fly yeh  
Feet lift off the ground  
Breaking through the ceiling  
Oh look what I've found  
This a brand new feeling  
We've been learning to fly

No No

No red light or dark night can stop we  
No wall no matter how tall can block we

No No

No red light or dark night can stop we  
No wall no matter how tall can block we

No No
