

Emily King, Moon

Oooohhhh
When you're alone
And you need the right direction
Who will you call?
As the stars glow bright
The night brings cold
And suddenly you're longing
For someone to hold
Just look to the moon
And you'll feel
That my love's right there with you
Oooohhhh
As the wind blows
You move around in circles
With nowhere to go
You try to keep
A sense of control
But inside you're unhappy
You long to feel whole
Just look to the moon
And you'll feel
That my love's right there with you
Just look to the moon
And you'll feel
That my love's right there with you
Mmmm
Oohhh
Yeeeaahh
Just look to the moon
And you'll feel
That my love's right there with you
Just look to the moon
And you'll feel
That my love's right there with you
