

# Eminem, Billion Bucks

Everybody says they want a million bucks  
But I'd rather have a million days with you  
My account doesn't go that high  
It doesn't mean you have to say goodbye to me  
Can't promise you a million bucks  
But I can promise I'll be good to you  
Everybody wants a million bucks  
But I'd rather have a million days with you  
Day one we'd go fishing  
Dollar movies on day two  
Days three and four we'd spend in bed  
Just like we used to  
A million days with you  
Would go by much too fast  
But I've got a million ways for our friendship to last  
I've got a million ways  
Everybody says they want a million bucks  
But I'd rather have a million days with you  
My account doesn't go that high

It doesn't mean you have to say goodbye to me  
Day five we would ride our bikes  
Camping on day six  
Days seven and eight I'd show you how much I love you  
A million days with you  
Would go by much too fast  
But I've got a million ways for our friendship to last  
I've got a million ways  
Everybody says they want a million bucks  
But I'd rather have a million days with you  
My account doesn't go that high  
It doesn't mean you have to say goodbye to me  
Can't promise you a million bucks  
But I can promise I'll be good to you  
Everybody wants a million bucks  
But I'd rather have a million days with you  
A billion days with you  
A billion days with you
