

Eminem, GNAT (Dir. by @_ColeBennett_)

They say these bars are like covid
You got 'em right off the bat
Infected with sars and corona
Like you took a bit off of that
But it goes from martian to human
That's how the virus attack

They come at me with machine guns
It's like trying to fight off a gnat
Still stackin' my chips hoes
Higher than Saqu on his tip toes
Atop the empire state buildings this

Shit is like child's play children
I will not anni-nihilate kill tchem
I will fuck around and pile 8 million
Dead little juvenile's wait chill
Then and i will await my trial date till then
