

Emirsian, Satisfied

Take your time
It wont feel right
Dont rely on
What you find
Choices come and go..to hurt you
Theres nothing wrong
That wasnt wrong before
And tears awake
Like pouring rain
Its taking you down now
The same old fight again
I saw you twice
The first time lies
But now I know I could make you satisfied
Again back on your knees
From head to heals
Inside your head youre deadyoure dead
Its taking you down now
The same old fight again
I saw you twice
The first time lies
But now I know I could make you satisfied
