

# Emma Roberts, We Are Gonna Happen

I get scared whenever were together  
But its not a good kind of scared  
I can tell that you're a little nervous  
The way you run your hands through your hair  
Do I have to paint a picture  
To make you see how I feel?  
Somehow whenever were together  
Our friends all ask what's the deal

You say I'm just an optimist  
But we could be much more than this

And I believe that we are gonna happen  
(were gonna get together)  
I believe that we are more than friends  
(its more than just a feeling)  
I believe were really gonna happen  
(were gonna get together)  
I know that's how the story supposed to end

You ask what I'm doing this weekend  
I say "not much how 'bout you?"  
You say you haven't made plans yet  
Yeah its clear you don't have a clue  
Might have to take it in my own hands  
Show you what loves about  
Cuz I'm not gonna wait forever  
Until you figure it out

Baby your blind to see that  
That you and I are ment to be

Cuz I believe that we are gonna happen  
(were gonna get together)  
I believe that we are more than friends  
(its more than just a feeling)  
I believe were really gonna happen  
(were gonna get together)  
I know that's how the story supposed to end

Maybe I'm an optimist but  
When were both as close as this

I believe that we are gonna happen  
(were gonna get together)  
I believe that we are more than friends  
(its more than just a feeling)  
I believe were really gonna happen  
(were gonna get together)  
I know that's how the story supposed to end  
I believe that we are gonna happen  
(were gonna get together)  
I believe that we are more than friends  
(its more than just a feeling)  
I believe were really gonna happen  
(were gonna get together)  
I know that's how the story supposed to end  
You know that's how the story's supposed to end  
You know that's how the story's supposed to end
