

Emo Side Project, Forever And More

just one more day with you i'd say
anything to make you stay
you know i love you, you know you make me
the happiest person there ever will be!

last night i had the bestest dream
it involved you and me
swimming, and singing, and cuddling, forever and more
and then you looked at me with those eyes
and a smile that could almost make me die
you took my hand and held it, forever and more

today i had the bestest time
you were always on my mind
making me sigh and daydream, forever and more
and then i thought of that pretty smile
the one that always makes me wild
and i'm happy and will be as long as i'm with you, oh

just one more day with you i'd say anything at all
