

Empty Trash, Can't Get You Out Of My Head

"
I still remember when you were mine
I've been without you for a long time
And I can't get you out of my head

I still remember the things we said
I think about you in an empty bed
Coz you've been on my mind
And being with you takes time

Chorus:
Standing on the edge (days are running fast)
Don't wanna go (time is going slow)
See everytime I try to forget
I can't get you out of my head

See when we started, we got so far,
I wanna go back to what we are
no, I can't get you out of my head

Space between us was a move that laid
We tried to hide it, what we found instead
Becoming what we are
is tearing us apart

Chorus: Repeat

wonder what you do
tell me do you feel the same
doesn't get to me

I still remember what we could be
With all the good things we never see
I can't get you out of my head

Standing on the edge (days are going fast)
Don't wanna go (time is going slow)
Standing on the edge (I don't wanna go)

I can't get you out of my head
I can't get you out of my head
I can't get you out of my head
I can't get you out of my head
I can't get you out of my head
I can't get you out of my head
I can't get you out of my head

"
