## En Vogue, Desire

Oom baby, oom baby, oom baby, oom baby Oom baby, oom baby, oom baby Hey you baby

A feeling I can't control

Is haunting me when you're not home

A feeling roams deep inside There really is no place to hide

(Desire)

Desire, ooh like fire

Come on baby light my fire

Ooh oh desire

Desire, ooh like fire

Come on baby light my fire

Desire, ooh like fire

Everywhere I go I have thoughts of you

Little fantasies of being with you

Having no control when having desires

Like having no more water to put out the fire

Every little minute grows my addiction

Each and every hour I fight the power

On and on the feeling never gives in

Don't never try to fight it, you never win

Desire, ooh like fire

Come on baby light my fire

Ooh oh desire

Desire, ooh like fire

Come on baby light my fire

Desire, ooh like fire

Desiiiiiire

Hey you baby

Desiiiiire

Hey you baby

Oom baby, oom baby, oom baby

Oom baby, oom baby, oom baby, oom baby

Hey you baby

Desiiiiire

Hey you baby
