

# End Of Green, Speed My Drug

Same old pain, same old desire.  
Reach my veins, it burns like fire.  
that's what i wanna be - my own worst enemy,  
six hundred sixty six more ways to bleed,  
thats what my life should be,  
my worthless enemy,  
six hundred sixty six more ways to bleed.

speed my drug all day and night long,  
speed me up with all these days gone ...  
speed my drug all day and night long,  
speed me up with all these days gone ...

hello dark days, goodbye light,  
spit it out, my mournful life.  
thats what i wanna be - my own worst enemy,  
six hundred sixty six more ways to bleed,  
thats what my life should be - my worthless enemy,  
six hundred sixty six more ways to be.

speed my drug all day and night long,  
speed me up with all these days gone ...  
speed my drug all day and night long,  
speed me up with all these days gone ...

Same old pain, same old desire.  
Reach my veins, it burns like fire.  
that's what i wanna be - my own worst enemy,  
six hundred sixty six more ways to bleed,  
thats what my life should be,  
my worthless enemy six hundred sixty six more ways to be.

show me the days addiction's gone.  
chemicals give me back control.  
another pill inside my mind.  
this is the day, prepare to die.  
Die.

speed my drug all day and night long,  
speed me up with all these days gone ...

thats what I like  
thats what I like

speed my drug all day and night long,

another fly  
another fly

speed me up with all these days gone ...  
now.
