

Entwine, Bitter Sweet

You drag me down into the unknown,
within desire of love you made me sell my soul,
now that's you gonna fall down with my reliefs,
with or without your love I can't be free
I fall into my dreams ...

Courage my heart and make me whole
cos' it's the only way to keep my self control
now that's you gonna fall down with my reliefs
with or without your love I can't be free

I fall into my dreams
now that's you gonna fall down with my reliefs
with or without your love I can't be free
I fall into my dreams...
