

# Epica, The Quantum Enigma - Kingdom of Heaven

Visum commutamus  
Nihil certum  
Qui observat, visi  
pars est

The quantum enigma  
All your laws and the assumptions  
Leave them all behind  
There's no grounds for them right here where time can't go  
If we can't move on and keep all leaning on the past  
We will regret  
We can't get what we wish for

New perspective keep us inspired

The quantum enigma  
All shadows and illusions  
We tend to believe  
Are creations of our own deceiving mind  
If we can't let go and keep chasing satisfyin needs  
We will not get  
How to forget our sapience

New perceptions keep us inspired  
Ingenuity is required

When we will look around and see  
We will affect the energy  
When we observe by any means  
We will create reality

We will not find if we don't seek  
We will not know if we don't peek  
We cannot do if we don't be  
Facing our deadlock now  
This is our quantum enigma

We'll ignite the fire  
That burns under the rain  
All that we desire  
Is to find our source again  
The meaning of life

All dreamscapes and inventions  
We tend to believe  
Are creations of our own deceiving mind

If we can't let go and keep chasing satisfying needs  
We will forget  
How to retrieve true wisdom

New perceptions keep us inspired  
Ingenuity is required

The quantum enigma  
when will look around and see  
We will affect the energy  
When we observe by any means

We will create reality  
We will not find if we don't seek  
We will not know if we don't peek  
We cannot do if we don't be  
Facing our deadlock now

This is our quantum enigma  
Without a voice the soul is invisible in time and space

Omne est vigor  
Sentimus eum  
Sicut concretum  
Vigor concrecit  
Observatione

Vita est mare  
Infinitarum facultatum  
Si quae emergant opperiens  
Quod inspiciamus  
Adipiscemur

Each new discovery  
That we acclaim  
Brings us much closer  
To reach our aim

So we will finally see  
All of the universe  
Exists by being observed  
Expanding every day

As we reach further  
Let's take this chance to carry on  
We will unravel mysteries  
And take the challenge as it comes

We will exceed our boundaries  
Let's use this chance to end this strife  
Obliterate anomalies  
Reveal the myths surrounding life

We will decipher secrets  
New perceptions keep us inspired  
Ingenuity is required
