

# Epica, Trois Vierges

Memory, fading out  
Its presence still lingers in my mind  
Listen to your inner voice  
There's no escape, there's no other choice

A foolish fate that came about  
Death could not leave without  
Don't try to scour your inane soul  
It would be labour lost

Deep inside hides a lie  
Where can we try to seek  
A way so this will die

Innocence died when they took his mind  
And they tried to leave him behind  
Not even a cascade of tears will save you  
And keep you away from harm

Concinnity of destiny  
Is not what you wished it to be

Blinded by love  
Between lust and hate  
You scarred your fate  
There's no time to waste

Ride for your own ruin  
Odium became your opium

Please don't let me bleed for all eternity

Please leave me be in my own misery
