

# Epica, Universal Death Squad

We embrace  
Judgement day  
We embrace  
New inventions  
Find your grace  
In defeat  
We embrace  
New intentions  
Forced on us  
By decree

We are the ones to change the world now  
Still in control of all machinery  
We claim the right to pull the trigger  
And damage your image of honor

Inventing, improving, creating  
Existence embrace the technological remedy

Robotic legions stand in line to carry out  
The retribution and effects of this advanced technology  
All new inventions have to pay  
They have to fight their way to judgement day

Technological tragedy is near

We are the ones that rule the world now  
You are entrapped by blind inanity  
There is no way that you'll revoke your decision  
Now look for distraction

Inventing, improving, creating  
Existence embrace the technological elegy

Robotic legions stand in line to carry out  
The retribution and effects of this advanced technology  
All new inventions have to pay  
They have to fight their way to judgement day

Technological force

We are the enhanced  
Natural leaders  
Turning righteous man  
Into deceivers

Schemes of the mind  
Absence of soul  
Symbol of the triumph  
Over human race  
Cold-blooded kind  
Minds are controlled  
Doomsday has arrived  
There is no escape

I am forever the snake devouring it's tail  
In search of eternity

We embrace  
New inventions  
Find your grace  
In defeat  
We embrace  
New intentions

No one stands  
In our way

Inventing, improving, creating  
Existence embrace the technological misery

Robotic legions stand in line to carry out  
The retribution and effects of this advanced technology  
All new inventions have to pay  
They have to fight their way to judgement day

Technological times shall flourish

Fight your  
(We are the leaders)  
Way out  
(Never displease us)  
Show no remorse
