

# Eric Carmen, On The Beach

(eric carmen)

It's time to leave, this party's boring  
I'd rather be alone -- with you  
I found a place where we can go  
Just the two of us will know  
'cause there's some things I'd like to do

Ooh, I wanna woo you, all night on the beach  
'cause we've got all summer to learn how to on the beach

They don't expect us till tomorrow  
I'll have us back again by two  
We'll take the car and slip away  
There'll be no one there to say  
Just what we should or shouldn't do

Ooh, I wanna  
Oh, I wanna woo you, all night on the beach  
'cause we've got all summer to learn how to on the beach

On the beach  
(on the beach)  
I've waited so-o-o long to be there  
Just half way, just outside the city  
'cause the night's young and you're so pretty, yeah!

Ooh, I wanna  
Ooh, I wanna  
Oh, I wanna woo you, all night on the beach  
'cause we've got all summer to learn how to on the beach
