## Eric Clapton, Someone Like You

(Arthur Louis)

I got up this morning and fell out of bed Trying to make it to the door. The wind was high, I didn't have much time, Trying to find a man to score.

And then you came up on the other side To brighten up my day. I knew right away That this could be my day.

[Chorus:]
Someone like you
Could make me change my ways.
Someone like you
Could turn the nights into days.

There you were, standing On a crowded street. You looked so good, though the air was bad, Walking through the fog.

## [Chorus]

I want to thank you, thank you now For getting me back on my feet again. I want to thank you, thank you now For getting me back on my feet again.

[Chorus 2x]
