

# Eric Saade, Break Of Dawn

I don't wanna wake up lonely  
I can't stand another night alone in my bed  
Missing, hoping  
At the break of dawn  
I won't let go  
Won't give up no

Think about home when you're far away  
Think about me when I wake up and you're gone  
At the break of dawn  
Think about us when we said forever  
Think about me and remember I'm alone  
At the break of dawn  
At the break of dawn

I keep dreaming you'll be with me  
I believe that somewhere down the line you'll be mine  
In the twilight  
I feel your beating heart  
I won't let go  
Won't give up no

Think about home when you're far away  
Think about me when I wake up and you're gone  
At the break of dawn  
Think about us when we said forever  
Think about me and remember I'm alone  
At the break of dawn  
At the break of dawn

My hands were cold and dry  
Your cheeks were red  
We promised that we'd love forever  
That's what we said  
That's what we said

Think about home when you're far away  
Think about me when I wake up and you're gone  
At the break of dawn  
Think about us when we said forever  
Think about me and remember I'm alone  
At the break of dawn  
At the break of dawn  
At the break of dawn
