

Eric Saade, Wide Awake (feat. Gustaf Norén & Filatov & Karas)

You keep me wide awake every day, every weekend

/5x

You've been around for a year like you just don't care

I want your love but your love's not in the air

I wanna believe I can leave but it makes me scared

Yes, you've been around for a year like you just don't care

Every time I'm praying, praying

I got you on my mind

No matter what I'm saying, saying

You come back in my life

You just wanna break it, break it

You're sending me to paradise

No way I can escape it, escape it

I never win the fight

You keep me wide awake every day, every weekend

/5x
