

# Erick Sermon, Safe Sex

sex  
have some sex  
safe sex  
word 'em up  
okay, it's time for some action  
a little passion, some booty waxin'  
for the bozac, make sure he's strapped  
and if baby got back, then yo, we with that  
call up a few people on the phone  
yo we're havin' a party, at my private home  
some bring some chronic, plus some brew  
call up your girl and invite her too  
come active and bring purple lactives  
'cause we're gonna get more busy than gymnastics  
and do the humpty hump all night  
so when you come with the boy, make sure you're right  
it's nine o'clock, party starts at ten  
so enough for now, I'll talk to you then  
later, huh, I'll see you when you get here  
and make it quick, ah yeah  
time for some safe sex  
[Chorus]  
safe sex  
safe sex  
safe sex  
we all need (safe sex)

ding dong, there goes the bell  
I opened up the door and oh, what the hell  
it was a buncha niggas standin' by my door  
I said come in, but respect my floor  
that means take off your shoes and englands  
'cause I'm a gentleman, some say distinguished  
all of y'all put your things up in the kitchen  
and the rest of y'all sit down and listen  
be free and relax in what you're wearin'  
let's all be happy like Bobby McFerrin  
and get loose and produce the funky juice  
and let's swing this shit like they swing a forty deuce  
they want some reggae, like some flex  
time to have sex  
and it's all night, so turn off the light  
and let's get high as a kite  
and have safe sex  
[Chorus]  
somebody say sex (sex)  
say safe sex (safe sex)  
I love it (I love it)  
I need it (I need it)  
but for real, when you're havin' sex  
no matter what type, make sure you wear the latex  
to all of the cons out there sexin'  
stop and look, boy, you're stressed out protection  
cause aids is real and something to beleive  
or not make-beleive and fake like hair weave  
a death wish like Charles Bronson  
and if you don't beleive me then ask Magic Johnson  
about the sex  
[Chorus]
