

Ernest Tubb, If You Call That Gone Goodbye

If you call that gone goodbye ain't nobody gonna cry
If you don't want me baby every since I don't want you
Plenty more with frills and lace a waitin' now to take your place
So if you leave me it won't make me feel blue
So go your way my darling I know I don't mind and if you call that gone goodbye
You may think you're leaving a broken heart behind
But if I'm blue I know the reason why
I know I never done you any wrong you don't love me but I knew it all along
Now I don't know or care just where you're going but if you call that gone goodbye
[guitar - steel]
So go your way my darling...
