

Esmee Denters, Gravity

Hmmm, yeaahh

Hmmm, Hmmm

Can anybody tell me why

I feel like I just lost control

And I make it back no matter how hard I try

There is not a way to say goodbye

and I dont even know if I wanna go

If you lied

if you couldnt say there is nothing just dont feel right

Well, we keep talking and talking

while theres nothing come out of it

And I know that I can make you see the way I feel

(ooh!)

Well now my heart is broken

and I just cant make any sense of it

All I know is your everything thats real

(ooh!)

[Refrain]

This aint the way that it supposed to be
that youre in love.

You got me stuck here in the crowd.

Everything feels heavy

and I keep carrying away for the both of us

The Gravity is holding me down

I cant move (ooh!),

cause Gravity is holding me down

I dont walk (ooh!)

but your Gravity is holding me down.

Promise let my waste go

Your Gravity is holding me down

I dont look (ooh!)

But your Gravity is holding me down

Whats going on

I dont wanna feel this way

I keep going on to the way that it used to be

Now tell me where to go from here

I dont want to lose this thing we had

But I kept tonight to far away from here

Well, we keep talking and talking

while theres nothing coming out of it

And I know that I can make you see the way I feel

(ooh!)

Well now my heart is broken

and I just cant make any sense of it

All I know is your everything thats real

(ooh!)

[Refrain]

This aint the way that it supposed to be
that youre in love.

You got me stuck here in the crowd.

Everything feels heavy

and I keep carrying away for the both of us

The Gravity is holding me down

I cant move (ooh!),

cause Gravity is holding me down

I dont walk (ooh!)

but your Gravity is holding me down.

Promise let my waste go

Your Gravity is holding me down

I dont look (ooh!)

But your Gravity is holding me down

[Refrain]

This aint the way that it supposed to be
that youre in love.

You got me stuck here in the crowd.
Everything feels heavy
and I keep carrying away for the both of us
The Gravity is holding me down
I cant move (ooh!),
cause Gravity is holding me down
I dont walk (ooh!)
but your Gravity is holding me down.
Promise let my waste go
Your Gravity is holding me down
I dont look (I dont look)(oohh!)
But your Gravity is holding me down
(ooooh) Gravity is holding me down
(ooooh) Gravity is holding me down
(ooooh) Gravity is holding me down
(oooooh oohh!)
