

# Ethan Gold, Nonstop

Drunk and tired but I still got some oil to burn  
Drunk and I want to slurk where I won't be spurned  
The streets echo my steps  
The girl couldn't stay  
Midtown's just a couple a miles away, yeah

Anything you want, everything you need  
City's gonna tease you 'til you bleed

Drunk and tired but some john's got money to burn  
Drunk and tired but I still got some tricks to turn  
Just like plutonium  
I feel natural  
I'm going to suck on the world 'til I'm full, yeah

Anything you want, everything you need  
City's gonna tease you 'til you bleed  
Anything you want, everything you need  
City's gonna tease you 'til you ?

I can hardly stand but I ain't going home

A Whore, A Whore, A Whore, A Whore  
A Whore, A Whore, A Whore, A Whore

Drunk and tired there's no cure like a shot of sleaze  
Where nothing's real, but they aim to please  
The streets echo my steps  
The girls never stay  
Midtown's just a couple a miles away, yeah

Anything you want, everything you need (I'm a naughty boy, I'm a naughty boy)  
City's gonna tease you 'til you bleed (I'm a naughty boy, I'm a naughty boy)  
Anything you want, everything you need (I'm a naughty boy, I'm a naughty boy)  
City's gonna tease you 'til you ?

I can hardly stand but I ain't goin' home  
Anywhere I land I will call my own  
I can hardly stand but I ain't goin' home  
Anywhere I land I will call my own
