## Europe, Ninja

(Joey Tempest)

Tell me the story, tell me the legend Tell me the tales of war Tell me just one time, What it was like before Bring me the feeling, right in that moment When a heart for battle cries Find me the treasure where the legend lies.

If I were a noble ancient knight I'd stand by jour side to rule and fight It will always feel the same When I call out your name.

Ninja survive, in dreams I walk by your side Ninja survive, with you there's no need to hide.

A handful of sayings are more than a reason For me to feel this way I'd like to be near you Maybe for just one day So tell me the legend, tell me the story Tell me the tales of war Tell me just one time What it was like before.
