

# Evanescence, Lies (Remix)

Bind my limbs with fear  
Choke me with tears  
I won't die for you

You've been here before  
And come back for more  
But not this time

You will never be strong enough  
You will never be good enough  
You were never conceived in love  
You will not rise above

Somebody tell me what made us all believe you  
I should have known all along it was all a lie  
I should have known it was all a lie

Now I know the truth  
I'm through fearing you  
And I am free

You will never be strong enough  
You will never be good enough  
You were never conceived in love  
You will not rise above

Somebody tell me what made us all believe you  
I should have known all along it was all a lie  
I should have known it was all a lie

Somebody tell me what made us all believe you  
I should have known all along it was all a lie

Somebody tell me what made us all believe you  
I should have known it was all a lie  
I should have known it was all a lie
