

Exellence, Lose It All

When you say you want me close
I wonder how far we'd go
I've never been so sure before
You make me lose it all
Everytime you hold me near
Feel's like I'm flying above the athmosphere
I've never been so sure before
You make me lose it
You make me lose it all

I've always know what I wanted
And sure how to get it
Never known to blush
Oh no
But now it feel's like I'm slippin'
Can't keep it together
Adrenaline rush
Yeah yeah

I think you don't even know how
Much you amaze me
You took me by storm
(took me by storm)

When you say you want me close (me close)
I wonder how far we'd go
I've never been so sure before
You make me lose it all (make me lose it)
Everytime you hold me near (me near)
Feel's like I'm flying above the athmosphere
I've never been so sure before
You make me lose it
You make me lose it all

And even when you're not with me
You know how to reach me
Invisible touch (invisible touch)
I never thought it would happen
You made me come down with
A hardcore crush (crush)

I think you don't even know how
Much you amaze me
You took me by storm
(took me by storm)

When you say you want me close (me close)
I wonder how far we'd go
I've never been so sure before
You make me lose it all (make me lose it)
Everytime you hold me near (me near)
Feel's like I'm flying above the athmosphere
I've never been so sure before
You make me lose it
You make me lose it all

Oouh ouuh
Oouh ouuh

The very first time that we met (ouuh)
That is something that I won't forget (no)
Cause I remember all the words you said
Cause you blew me away baby
The very first time that we met (ouuh)

That is something that I won't forget (no)
Cause I remember all the words you said
Cause you blew me away baby

Took me by storm

When you say you want me close (me close)
I wonder how far we'd go (oouh oouh)
I've never been so sure before
You make me lose it all (make me lose it)
Everytime you hold me near (me near)
Feel's like I'm flying above the athmosphere (oouh oouh)
I've never been so sure before
You make me lose it
