

Face Of Anger, Roach List

tear me open and look inside
see the thing I've become
watch my world now collide

blistered mind, wasted time
am I so blind
been the one that they made
and they left behind

can you feel me
can you feel me rise
can you feel me rising

see they tears of my shame
as they fall like rain
clench my fist and dismiss
but then who's to blame

roach list... roach list... roach list - you're bleeding me

dead again for my sins
and I cannot hide
paid the price for your lies
and you watched me die
