

# Face Of Anger, Roach List

tear me open and look inside  
see the thing I've become  
watch my world now collide

blistered mind, wasted time  
am I so blind  
been the one that they made  
and they left behind

can you feel me  
can you feel me rise  
can you feel me rising

see they tears of my shame  
as they fall like rain  
clench my fist and dismiss  
but then who's to blame

roach list... roach list... roach list - you're bleeding me

dead again for my sins  
and I cannot hide  
paid the price for your lies  
and you watched me die
