

Fair To Midland, Kyla Cries Cologne (Inter.Funda

let me introduce you to a pair that strikes crude oil
but i see pyrite
it is the same old pattern - the goose that feeds the gander
they choose to act
but not i
let's go outside and it might restore us
more for the fire that fights for the freeze
now mechanical
so the the pair proceeded
another pulse defeated - can't say that i am surprised
"it is the fly trap's color that caused the fall into her"
what is the shade that you saw?
(bridge)
bound by the salt
not your earth
the hat mocks the rabbit while the bee stings the shark
stop the start
these are my disguises
vinegar & water gave the end away
bought my stocks and lost 'em while the suitcase said:
"let's go outside and it might restore us"
