## Fall Out Boy, Bob Dylan

when they say
you and waht army?
i guess they're talking about you and me
baby, nobody would love you
nobody would love you
like, like I do
I quess that's half true

come down /3x
from your holy mountain
I am down /2x
to put your shame on a billboard for a second sometimes /2x
the only way out this through , through

cause everyone loves Bob Dylan I just want you yo love me like that would you bury me next to Johnny Cash? I am obsessed, do you love me like that?

sp what fates do we share windows down, wind in your hair baby, no one ever thinks of you no one ever thinks of you as much as I do not, not even you

come down /3x
from your holy mountain
I am down /2x
to put your shame on a billboard for a second sometimes /2x
the only way out this through , through

cause everyone loves Bob Dylan I just want you yo love me like that would you bury me next to Johnny Cash? I am obsessed, do you love me like that?
