

Falling Up, Arafax Deep

When this water flows down from the side of only you
Can you take everything that I am holding on to tightly
And all this love, it will crash just like you say
'Cause I need what you just have to say
This time the world hurts, we're looking for words to say

CHORUS

Show me your meaning of love
Show me the secrets to life
And I'll crash in the rain
Your love is all I need

Can I change all I am, can I build a legacy
When I see everything that it was
Was never what I needed?
When, when you take
Will you take my heart away?
'Cause I need what you just have to say
This time the world hurts, we're looking for words to say

CHORUS

Show me your meaning of love
Show me the secrets to life
And I'll crash in the rain
Your love is all I need

When the window's closed, but the curtains blow
And the painting's done, you still see through
So will search my heart, I can rest my eyes
All this broken sight, just can see you
When the window's close but the curtain blow
And the painting's done, you still see through
When they stand surround, they all fight the rain
But I will see it's just a frame

CHORUS

Show me your meaning of love
Show me the secrets to life
And I'll crash in the rain
Your love is all I need
