

Falling Up, Exhibition (Eposion)

They, they come
They, they come
They, they come
I can feel this, I can feel this
I can feel this

Phones are tapped again
They know just what I've said
The edge of the knife is choosing it's team
(It's the only way, it's the only way)
The start of the threat is that I'm not asleep
(It's the only way, it's the only way)

You know
While you're sleeping
You know

They come, they come, they come
They come, they come, they come
They come, they come, they come
They come, they come, they come
They come, they come

The edge of the knife is choosing it's team
(It's the only way, it's the only way)
The start of the threat is that I'm not asleep
(It's the only way, it's the only way)
The edge of the knife is choosing it's team
(It's the only way, it's the only way)
The start of the threat is that I'm not asleep
(It's the only way, it's the only way)
The edge of the knife is choosing it's team
(It's the only way, it's the only way)
The start of the threat is that I'm not asleep
(It's the only way, it's the only way)
The edge of the knife is choosing it's team
(It's the only way, it's the only way)
The start of the threat is that I'm not asleep
(It's the only way, it's the only way)

While you're sleeping
You know I've been erased
While you're sleeping
I can feel this sinking in
While you're sleeping
Can you feel this moving in
While you're sleeping
I can feel this sinking in
While you're sleeping...
