Fame Academy, Lullaby

Lemar: Open her eyes
Cause her to fall in love with me
Help me to speak, bless me with words that she will feel
Oh let it rain droplets of sunshine in her life give her the world but
Let it be me she longs to hold

Ainslie: I can't wait
Lemar: I won't wait
Ainslie: Cause tomorrow's too late
Lemar:And I need her right now in my life

All that I'm praying for is my love finds her like a lullaby
Finds her in the night, sings her to sleep
All that I'm hoping for is my voice finds her like a lullaby
Sings her to sleep
She'll wake with me

David: Rewind the days to when she first laid eyes on me
Ignite the fire let it burn uncontrollably
Oh I'm in love I've never felt this way before
Make her fell the same and I will ask of you no more

Ainslie: I can't wait
Lemar: I won't wait
Ainslie: Cause tomorrows' too late
Lemar:And I need her right now in my life

All that I'm praying for is my love finds her like a lullaby
Finds her in the night, sings her to sleep
All that I'm hoping for is my love finds her like a lullaby
Finds her in the night, sings her to sleep

Ainslie: This is my prayer, I'v no shame to declare
that I'm praying for you
Lay down a love song made of this melody
Oh let this lullaby cry and it'll catch her and . . .

All that I'm praying for is my love finds her like a lullaby
Finds her in the night, sings her to sleep
All that I'm hoping for is my voice finds her like a lullaby
Sings her to sleep
She'll wake with me

All that I'm praying for is my love finds her like a lullaby
Finds her in the night, sings her to sleep
All that I'm hoping for is my voice finds her like a lullaby
Sings her to sleep
She'll wake with me x6
