

Fancy, Like You

Like you
Like you
She had a way
With her own kind of style
Like you
She had a far away smile
Like you
I can't believe that it's true
How I thought it was you
I don't know why in the world
But she's just like you
Just Like you

Late at night
And all through the day
I remember you so far away
It's all right I say
We were through
But she's like you

Like you
She goes so far
To believe in her pride
Like you
She kept her feelings inside
Like you
I can't believe that it's true
How I thought it was you
I don't know why in the world
But she's just like you
Just like you

All I wanna do is think of you
I'm ready to play
A sample of truth
Now we're gonna know
What to do
The reason is
She's like you
